日向

turn
If I don't engage you guys with exercise
jiggle jiggle
And don't focus your attention elsewhere
Surely you guys will fix your dirty gaze on me
It's too much, having you guys think about Ms. Yuripe that way
Men are scary
The next step? What's going on? Is the swimming pool next?
Okay, that's about enough. Time to carry out the next step

I really want to punch her
Huh? We don't have time to play.
Are you an idiot?
Yes?
It's about time you told us, right?
Chaa
Told you what?

let's go in
As long as we change to sports-wear
We're not entering from here, right?
I didn't think there would be a cave at a place like this
Yeah. Should we give up?
Wah! It's so narrow and dark!
Don't be so unreasonable, Yurippe!
Hurry up and get a move on! Geez!
It's here
clatter
Eh?

Angel Beats! Heaven's Door Volume 1 is now on sale!

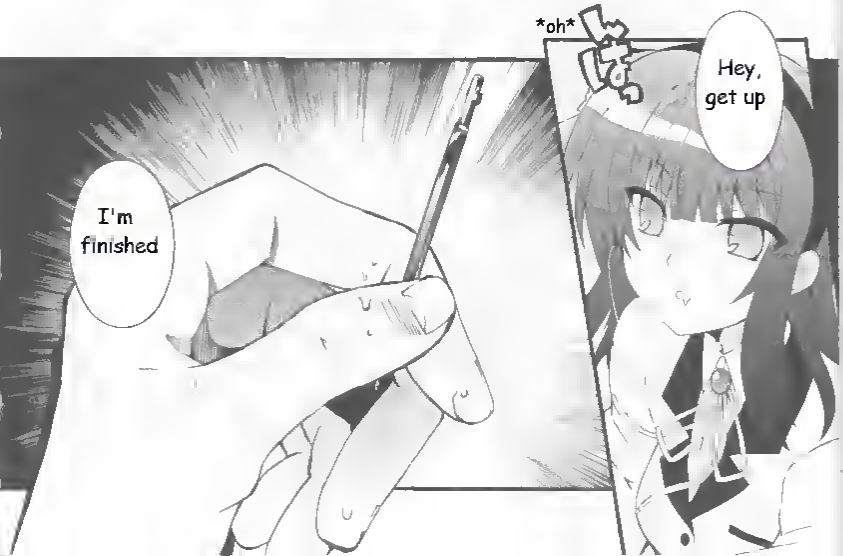
There's a room in a place like this...?
And there's even electricity...
Then, was there someone living here previously?
No. Though this was some kind of monitoring room.
Did you construct this place, Chaa?
This room existed originally, I just made it more comfortable to live in

Behind this door
Is still another long passage
I can't even determine how far it goes
Ahh! What kind of survival game is this??
You've been living here ever since you came to this world?
Hm?
How are you able to live in such a gloomy place?
I'm impressed
If there really were people living below here,
that would make it more gloomy, wouldn't it?

Mr. Asami's short is now published! Angel Beats! Heaven's Door Comic Anthology is on sale!!

If I only explained to you, you might not have believed me
Let me see...
clatter
Hey! Weren't you going to tell us how you got that gun? What did we come here for?
That's a block of clay, right? Where did it come from?
As long as it has the qualities of clay, it works
plunk
squeeze
grab

dozing off
"zzz"



oh
Hey, get up
I'm finished

What?? The clay just now!
Eh!?
Hey, you didn't really make a gun like this, right?
Using dirt?! You're kidding!?
It's true
That's amazing... it became iron
If I had to say, it's like alchemy
At first, when I came to this world, I thought I would first build a house so that whenever she came there would be a house to live in
Your wife, huh
Yeah, but it didn't matter that there was all the wood I needed in the forest, there weren't enough nails.

The dirt turned into nails
I had no other option, so when I was thinking of filling in the cracks between the boards with dirt
Really now, anything seems possible in this world
Uh huh
Got it!
Given this, let's also make things!
Okay! Let this be a challenge for everyone!

2 hours later...
I made some-thing!
You're incredible, Yurippe...
My arm is really tired, I can't make anything anymore
You guys are worthless wretches from head to toe
ugh
Go properly learn from Chaa, won't you?
...
But I spent two hours and only made a nail, how am I supposed to make a gun?
So create all the parts one by one and then assemble them together That just now was only one of them

Well...
No wonder why her parents wanted to break you two up
Yeah
And you can reproduce every piece correctly?
Uh huh
What I just made was a part of the firing pin.
Then are you saying you know the entire complicated structure of a gun?
You're saying things out of a TV drama. Relax a bit.
pull on cheek
?
You're right... even though I don't really understand...
Maybe it's related to the fact that in this spirit world,
our bodies can't die?
He really does have connections with the mafia
What survival skills!
Okay, comparitively though, what do you think about the alchemy?

Also, all you need in this world is a detailed memory and physical strength and you can reproduce anything?
But it can only be something simple like a needle or a nail
You can't create something complicated like a gun in one go
If that's the case, then calling it something like atomic restructuring would be more appropriate I think
Hey Chaa, how long does it take you to assemble all the parts together into a gun?
Like this today, it would take about 170 hours working day and night
Teacher! I don't get it!
I don't care Keep going

If you ordered me to, I could make a gun for everyone here
Compared to that
I want to check out what's behind this door
Nah, even though we could probably have use for them in the future, we don't have enough time
Eh! Eh!! Doesn't it go really for? We're really going to explore that underground dungeon?
Is it really that long?
I went all the way down to the 22nd level before realizing I had no food and wouldn't be able to make it back if I went further, so I returned
The 22nd level! What kind of survival game is this?
Do you want us to continue?
You're right, that's not really possible...

In that case, let's bring food and water with us!
She really still is our bossy princess
Ooyama and I unconditionally became pieces for her to order around
Although, with Chaa around, I feel a little relieved, even though he is a bit scary
You can say he's very dependable! Even though he is a bit scary
Getting Chaa to act like this seemed impossible

hmph?
Whoa! I made something! I'm awesome!
哇
Ah come back! Quick, look! Hinata, Ooyama too!
You know what this is?

You're pretty dextrous, the day you'll be able to make a gun will be soon
I'm not going to make those kind of tasteless things
blow
You're right! I made it from the dirt here!
Isn't that a pinwheel?
twirl
twirl
twirl
I need to make 2 more...
Isn't it 3 more...?
3
2
1
You're not giving it to me?
No, it's not for you!

Whatever, at least she's giving us some-thing
We have food too,
and we didn't leave too late
Oh... it's dark Feels like something is going to happen
If we run into the underground people, what will we do...
Don't worry, we have 4 people with us.
Even if we do, it won't be a surprise attack.
